Activity 07 - Capstone: Northstar Retail Campaign Review and Delivery

Course: Mastering Adobe Lightroom for Photo Editing Course Code: TGS-2022015367 Alignment: K1-K6, A1-A4
Version: v12.0 | 19 August 2026

Scenario

Northstar Home, a Singapore lifestyle retailer, needs a six-image launch set for web, social media, and an in-store screen. Stakeholders disagree about mood, two source images have uncertain licence records, one portrait contains location metadata, and the marketing lead wants a shareable review album by 3:15 pm. You must manage the brief, editing, evaluation, collaboration, IP checks, and delivery trail.

Role cards

Role 1: Lead photo editor

Represent this stakeholder's legitimate needs, constraints, quality risks, and preferred outcome. Record decisions in observable production terms.

Role 2: Marketing lead

Represent this stakeholder's legitimate needs, constraints, quality risks, and preferred outcome. Record decisions in observable production terms.

Role 3: Brand designer

Represent this stakeholder's legitimate needs, constraints, quality risks, and preferred outcome. Record decisions in observable production terms.

Role 4: Rights and privacy reviewer

Represent this stakeholder's legitimate needs, constraints, quality risks, and preferred outcome. Record decisions in observable production terms.

Role 5: Production coordinator

Represent this stakeholder's legitimate needs, constraints, quality risks, and preferred outcome. Record decisions in observable production terms.

Scenario questions

1. How did stakeholder consultation change the final set?
2. Which Lightroom capabilities were suitable or unsuitable for this campaign?
3. How did design principles drive the hero edit?
4. Which rights/privacy risk changed your workflow?
5. How can another editor reproduce and audit the delivery?
